

Fujitsu Image Scanner Refurbishment Service

Fujitsu scanners are made to exacting standards but with time and heavy use the friction parts such as feed rollers, exit rollers, pick and brake rollers wear out.

Locktec offers a comprehensive refurbishment service which returns the scanner to near new condition, we are so confident with our work and the quality of the scanners that we offer a one year return to base warranty on refurbished units.

During refurbishment Locktec only uses genuine Fujitsu manufactured parts, rollers and consumables, the scanners are thoroughly cleaned inside and out, the optics are calibrated to factory specifications and firmware is updated to the latest available version.

So there are no surprises the labour rate is fixed at \$165.00 inc GST*.

The cost of all new parts and return freight are quoted prior to proceeding with any work, terms and conditions apply.

If you would like to book your scanner in for refurbishment log a Service Request at www.locktec.com.au and select Service Request from the menu, alternatively [>click here<](#) or call 1300 55 22 50.

Locktec Australia is a fully authorised service provider for Fujitsu scanners and printers in Australia providing repair services and consumable products for the full range of Fujitsu image scanner and printer products.

*Rate applies to workgroup scanners, prices are subject to change, for current rates refresh this brochure or call 1300 55 22 50. For rates on production scanners please call 1300 55 22 50.
